SSE.1/Circ.3/Rev.2  
25 September 2019

### **LIST OF RECOGNIZED TEST LABORATORIES**

1 In facilitating the implementation of the International Code for Application of Fire Test Procedures, 2010 (2010 FTP Code), the Secretariat has updated, as necessary, the list of laboratories recognized by Administrations concerned which are able to conduct fire tests in accordance with the provisions of the 2010 FTP Code, and circulated it as an SSE.1 circular, bearing in mind that, in compliance with paragraph 8 of the 2010 FTP Code, only tests conducted in accordance with the 2010 FTP Code are allowed from 1 July 2013.

2 Following the decision of the Sub-Committee on Ship Systems and Equipment (SSE), a new module on recognized test laboratories has been established under Global Integrated Shipping Information System (GISIS) in order to facilitate the dissemination of the information among interested parties.

3 This circular contains the revised list of recognized laboratories based on the information received by the Secretariat up to September 2019. In line with the SSE Sub-Committee's decision, this circular will no longer be reissued, as the Member States are expected to update their relevant information in the new GISIS module.

4 Instructions on how to use the new module is contained on the homepage of the GISIS module on "Test Laboratories and Halon Facilities". Member States are requested to bring the information contained in this circular to the attention of shipyards, equipment manufacturers, shipowners, ship operators and other parties concerned.

5 This circular supersedes the *List of recognized test laboratories* (SSE.1/Circ.3/Rev.1).

\*\*\*

ANNEX

TEST LABORATORIES RECOGNIZED BY ADMINISTRATIONS

Administration	Test laboratories recognized by the Administration	International Code for Application of Fire Test Procedures, 2010 (resolution MSC.307(88))									
		Part 1	Part 2	Part 3	Part 4	Part 5	Part 7	Part 8	Part 9	Part 10	Part 11
Australia	Exova Warrington Australia Pty Ltd, Dandenong, VIC, 3175 Australia	+		+	+					+	+

In addition, other institutes may be accepted when the test is carried out according to the relevant part of the 2010 FTP Code and the institute is recognized by the national Administration or a United Kingdom recognized classification society.										

**LEGEND:**

- 1 Entries in the vertical columns related to the *International Code for Application of Fire Test Procedures, 2010 (2010 FTP Code)*, adopted by resolution MSC.307(88), stand for the following:

<b>Part 1:</b>	<b><i>Non-combustibility test</i></b> to be carried out in accordance with part 1 of annex 1 to the Code and conforming to the standard ISO 1182; see also paragraph 2 of part 1 of annex 1 to the Code.
<b>Part 2:</b>	<b><i>Smoke and toxicity test</i></b> in accordance with part 2 of annex 1 to the Code. Smoke generation test to be conducted in accordance with the standard ISO 5659-2.
<b>Part 3:</b>	<b><i>Test for "A", "B" and "F" class divisions</i></b> in accordance with part 3 of annex 1 to the Code.
<b>Part 4:</b>	<b><i>Test for fire door control systems</i></b> in accordance with part 4 of annex 1 to the Code.
<b>Part 5:</b>	<b><i>Test for surface flammability (test for surface materials and primary deck coverings)</i></b> in accordance with part 5 of annex 1 to the Code.
<b>Part 6:</b>	<b>Blank</b> – Part 6 of the FTP Code, adopted by resolution MSC.61(67), has been incorporated into part 5 of annex 1 to the Code.
<b>Part 7:</b>	<b><i>Test for vertically supported textiles and films</i></b> in accordance with part 7 of annex 1 to the Code.
<b>Part 8:</b>	<b><i>Test for upholstered furniture</i></b> in accordance with part 8 of annex 1 to the Code.
<b>Part 9:</b>	<b><i>Test for bedding components</i></b> in accordance with part 9 of annex 1 to the Code.
<b>Part 10:</b>	<b><i>Test for fire-restricting materials for high-speed craft</i></b> in accordance with part 10 of annex 1 to the Code.
<b>Part 11:</b>	<b><i>Test for fire-resisting divisions of high-speed craft</i></b> in accordance with part 11 of annex 1 to the Code.
